GENERAL INSURRECTION IS PROCLAIMED

SOFIA, Sept 1—A local newspaper announced today that a general insurrection was proclaimed today in new districts of Turkey across the southern frontier of Bulgaria. The rising is headed by the famous Macedonian leaders, General Zonticheff, president of the Macedonian council, and Col. Jankoff.

FIVE ARRESTS MADE.

Turks Make Light of Attempt to Kill Vice Consul.

Declare That the Shooting Story Is a Fake.

CONSTANTINOPLE, September 1.—The Porte has notified Minister Lelshman that five arrests have been made at Beirut in connection with the shooting which led to the report that William C. Magelssen, the United States Vice and Deputy Consul there, had been assassinated. The Turkish officials continue to insist that no attempt was made on the Vice Consul's life and they re-assert that the whole story originated in a few defamatory articles in accordance with the custom. Mr. Lelshman, however, refuses to accept such an explanation without conclusive proof that the judicial investigation continues.

The attempt to burn the American college at Kharpout occurred five weeks ago and apparently was the work of an individual who considered that he had a grievance against the college authorities. When Mr. Lelshman was informed of the attempt he demanded that the Porte protect the American institution and in consequence of his representations instructions were sent to the authorities at Kharpout to try and press the charges against fifty Armenians charged with trafficking in opium and engaging in seditious acts. Among those accused is Professor Tenekedjian of the American college, whose treatment in prison pending his trial was also ordered to be improved. Mr. Lelshman is pressing for a definite settlement of a number of matters on which agreements were reached with the Turkish authorities last year, but which, in spite of frequent promises on the part of the Porte, have never been executed. For instance, a naturalized American is still in prison.

TURKS SHED BLOOD.

Capture a Village and Then Kill All the People.

Entire Population Is Wiped Off the Map By Murderers.

SOFIA, BULGARIA, SEPT. 1. — A STRONG FORCE OF TURKISH INFANTRY, CAVALRY AND ARTILLERY RECENTLY ATTACKED THE VILLAGE OF STOILOVO, NORTHWARD OF MAL-KOTERNEVO, WHICH HAD BEEN OCCUPIED BY INSURGENTS.

THE LATTER RETIRED, AFTER WHICH THE TURKS ENTERED THE PLACE, MASSACRED THE ENTIRE POPULATION AND DESTROYED THE VILLAGE.

PRINCE FERDINAND OF BULGARIA HAS ARRIVED AT EUXINOGRAD, BULGARIA. WHERE HE WAS JOINED BY PREMIER PETROFF. THE PRINCE IS EXPECTED TO REMAIN THERE FOR SOME TIME.

on at Tripoli, Syria, although the Porte has frequently informed Mr. Lelshman that the authorities at Beirut, who have jurisdiction over Tripoli, had been ordered to liberate him.

Yesterday Mr. Lelshman received a telegram from Rear Admiral Cotton dated from Genoa, Italy, Sunday evening, announcing that the United States warships Brooklyn and San Francisco would arrive off Beirut at the end of the week.

WOMAN CATCHES BURGLAR.

Mrs. L. J. Richardson Locks a Robber in Her Closet.

She Was Assisted By Her Husband and Prof. Wilkinson.

BERKELEY, Sept. 1. — Through the bravery of Mrs. Leon J. Richardson, wife of Professor Richardson of the Latin department of the University of California, the burglar who is believed to have committed the recent robberies in the city, was captured last night. After the alarm had been sounded by Professor Warring Wilkinson in the residence, which stands on the State grounds of the Institute for the Deaf, Dumb and Blind, Mrs. Richardson and her husband arose and found the burglar in the hallway. Upon being discovered the marauder darted into a closet, closely followed by Mrs. Richardson and her husband, who shut the door on the fellow.

They telephoned Marshal Kerns, who arrived at 3 o'clock A. M. and placed the man in Addison street jail, from where he was taken this morning to the County Jail in Oakland. The man gave his name as Charles T. Gaylor and says that he is an honorary discharged soldier from the First California Infantry. He has been living in the Bailey block on Dwight Way, where he has made his residence for the last two months. His rooms were searched this morning by the officers, but Marshal Kerns declines to state whether he found any evidence of an incriminating nature.

Gaylor told Marshal Kerns that he was intoxicated last night and does not remember what occurred. He exhibited to the officer his discharge papers from the army, which give him a good character. When telling about the occurrence this morning, Professor Richardson said: "The credit for the capture of the burglar is due my wife, who shut the door on the man. The fellow made but little resistance and submitted quietly when he knew we had him. When he was searched by the officer, it was found that he had no weapons on him."

Until recently Gaylor was employed at the Dwight Way stables, where but little is known of his antecedents.

Mrs. Richardson is a daughter of Professor Wilkinson.

A note was found in the burglar's room directed to a pal, stating that Gaylor had made three attempts to rob Miss Anna Head's school for girls, but had failed. According to the note, he was to make another attempt.

CHRISTIAN HOMES ARE BURNED BY TURKS.

CONSTANTINOPLE, Sept. 1.—Official reports say that 300 insurgents were killed or wounded during the fighting which occurred last week in the vilayet of Monastir.

The Porte has sent a memorandum to the Austrian and Russian ambassadors here, pointing out that at the recent mass meeting of Macedonians in Sofia, Bulgaria had decided to send fresh bands into Macedonia, and a so-called attention to the fact that committees in Bulgaria were supplying the insurgents with arms and ammunition.

The Austrian and Russian ambassadors here, pointing out that at the recent mass meeting of Macedonians in Sofia, Bulgaria had decided to send fresh bands into Macedonia, and a so-called attention to the fact that committees in Bulgaria were supplying the insurgents with arms and ammunition.

In spite of the apparent gravity of the general situation optimism prevails in Turkish official circles. In the course of the audiences which the German Ambassador, Baron von Biehlstein, and the Russian Ambassador, A. Zinovietz, who has been with the Porte for the purpose of recommending more energetic action and entrusting the Turkish commander-in-chief full direction over the military operations in the Balkans to the fact that the Porte is determined to retain control at Constantinople.

The government has imposed a personal or land tax on the estate of the dispatch of the warships to Turkish waters not solely to the Magelssen affair, but to the general dissatisfaction of the authorities at Washington at the non-fulfillment of the Porte's promises in regard to pending questions, and to the determination of President Roosevelt to show Turkey that she cannot trade with American representations. Diplomatic circles here generally approve of the energetic action of the United States, which it is pointed out is amply justified by the bad faith of Turkey, and it is felt here that the appearance of the United States warships in the Straits of Messina after seeing the 10,000 miners in Missouri, Kansas, Arkansas and the Indian Territory.

Nothing so impresses the Porte as a naval demonstration as the diplomats claim that this will be specially noticeable in the present case, as the Americans are not fettered by the other powers by agreement, regularly the in some quarters as being in the nature of a provision for war.

LIPTON TO HURRY HOME.

Yacht Race Agony is Prolonged Another Day.

Sir Thomas is Anxious to Have the Whole Thing Over.

NEW YORK, Sept. 1.—Today's attempt to sail the third race in the international series was another failure and at 12:30 it was called off for the day because of a lack of wind.

Despite the weather conditions that made it almost a certainty that no race could be sailed, the yachts made for the starting line when the wind was not over three miles.

They lay about the lights for more than two hours in the hope of the wind freshening, when the committee boat signalled the race was off. The yachts dropped their sails, picked up their oars and made for their anchorages at Sandy Hook.

The committee boat started up the bay, flying the signals for a race tomorrow.

AGONY PROLONGED.

NEW YORK, Sept. 1.—As an event in yachting the international races have proven a prolongation of agony which all wish to see ended, and what interest remained after the first race between Roseland and Shamrock III had gradually disappeared with each succeeding attempt to race. The decided superiority of Roseland over Shamrock, demonstrated in the two races that have been sailed, has left no doubt in the minds of the world.

Mr. Delaney expressed himself in no uncertain terms.

EVENING

SAN FRANCISCO, Sept. 1.—The Master Barbers' Association of San Francisco will meet this evening to make final arrangements for the holding of a mass meeting next Sunday for the purpose of bringing together all the local barber shop proprietors to discuss the proposed new scale of shop charges.

The mass meeting will be held at 7 o'clock p. m. in Social Hall, 102 O'Farrell street. Not all of the local master barbers belong to the association and an earnest effort is being made by the officials of the association to have the

organization attend the meeting next Sunday, so that any action taken will be the more representative of the masses.

PROPOSED NEW SCALE.

At the mass meeting the following

Hair cutting, 35 cents; shaving, 15 cents; neck shaving five cents; mustache curling, 3 cents; shampoo, 25 cents; egg shampoo, 35 cents; hair shampoo, 25 cents; face massage, 25 cents; sea salt with shampo or hair cut, 10 cents; 0 cents; egg foam, 10 cents; hair shaving, 15 cents; shaving on Sunday and holidays, not including beard, 25 cents; shaving and trimming beard, 25 cents. The principal changes in the protective scale over present charges are the raise of 10 cents for hair cutting, the charging for neck shaving and mustache curling, which are now done free of charge, the increase of 10 cents on eggs

In a number of cases the committee was able to adjust differences over the rule without recourse to boycott. The union disclaims all connection with the raising of prices for shop charges.

It is not believed that the journeyman will offer any opposition to the increase

adoption of the new scale, owing to the union rule which makes journeymen share profits with bosses in all shop receipts. All the local shops will be closed at noon next Sunday, and they will not be reopened until Tuesday morning, on account of Monday being Labor Day.

FOOTBALL SEASON OPENS.

LARGE SQUAD APPEARS ON THE GRIDIRON AT THE UNIVERSITY.

BERKELEY, September 1.—The appearance of a large squad on the gridiron this afternoon, marked the opening of the football season of the University of California. The veteran players and freshmen appeared on the field, which had been carefully prepared in their full football regalia.

There was a large gathering on the bleachers and the rooting was opened with spirit and vim. The prospects for a winning team, judging from the present outlook, are very favorable for California. The center line, with Sirood, Overall and Stone, is intact while Demmitt and Hudson will furnish good ends. Other candidates for honors on the team, who have changed their minds regarding appearing, will be More, Jack Whipple, Mather, Graves, Mini, Boynton, and White.

The following appeared on the gridiron this afternoon, having signed during the past week for their suits: Upper Classmen—J. B. Ambrose, Walter Burns, C. F. Burke, A. Barton, C. Boothe, F. Bush, L. LOCALS WILL MEET BROWNS.

SAN FRANCISCO GOES TO SACRAMENTO AND SEATTLE STAYS SOUTH.

This afternoon the Browns will open up the week's series with the Portland team at Golden Gate and the balance of the week at Recreation Park across the bay, with the usual morning game at Golden Gate on Sunday. The Browns have been playing first-class ball for the past month and can hold their own with the best of them. Now that Devereaux is back in the game the local team is stronger than ever and the series will be a close one between the two teams.

San Francisco is scheduled to play six games with Sacramento this week and left this morning for the Capital City to fulfill the engagement. They and Worcester, the two crack pitchers of the San Francisco team, were left behind on account of illness. There is a very sick man and it is doubtful if he will be able to pitch again for at least two weeks. Duke Carter, formerly of the Helena Nationals, has been signed by Harris and left with the team this morning. Carter's injured ankle was not considered serious enough to keep him out of the game and he was taken along to cover first base as usual. At the present time the team owned by Harris is in a sadly crippled condition, especially in the pitching department.

Seattle will remain in Los Angeles for another week. Seattle did remarkably well in the last series with the leaders, breaking even on the six games. This is considered very good in view of the fact that the Angels play their strongest on the home grounds.

Mike Fisher wants experienced pitchers and he wants them bad by the way to keep the wires to the East hot. For the past week he has been dicker with the Great Joe Waddell and still entertains hopes that he may sign the eccentric pitcher. He has also negotiated with a series, who was the star twirler of the St. Louis Nationals last season, and with Maurice of the New York State League, who made quite a reputation as a pitcher. It is said that both have been signed and are now on their way to the coast. If such is the case they will arrive in time to participate against San Francisco this week.

Joe Corbett is considered to be one of the best all-around players in the league. He is a star pitcher and can hold the batters in the league. In addition to this, he can play any position in the field as well as he plays in the box, which is saying a good deal. Throughout the season he has been called upon at different times to fill different places in the infield, and he has covered them like a veteran. On top of all this he is a strong batter and averages over .300.

Barber, Seattle's new twirler, has certainly made good in the few games that he has pitched. He has splendid control and a good assortment of breakers.

CLEAN BARBER SHOPS NOW.

NEW YORK, Sept. 1.—The new law regulating barber shops, which became operative and, beginning today, any barber shaving a customer without washing his hands in warm water and soap, or using a powder-puff or a towel on more than one person without his having been washed will be subjected to imprisonment and fine.

No alum or other astringent may be used in sick form to stop the flow of blood. The use of sponges is strictly prohibited. Nails and shaving brushes must be thoroughly washed after use on each person.

Combs, razors, clippers and scissors must be thoroughly cleaned by dipping in boiling water or other germ-destroyer after separate use. Provisions are made for the cleanliness of shops and every barber must have a certificate procured by an examination before a State board.

KOSTER BEAT JIM FOX.

GOOD AMATEUR BOUTS LAST NIGHT AT HAYES VALLEY CLUB.

Gus Koster gained a decision over Jim Fox before the Hayes Valley Athletic Club last night in Mechanics' Pavilion Annex. The first three rounds Koster did most of the leading, while his opponent contented himself with protest bleeding. Fox rushed in the last three rounds and had a little the best of it. He was a favorite with the audience, who were greatly displeased when Koster was awarded the decision.

Al Eklins said he was sick, so Joe Hill boxed Willie O'Brien in his stead, knocking him out in the second round. Dick Murray put Tom Bossi to sleep in three rounds and Ed Parker got rid of Joe Dunn in two. Joe Hall beat George Murdoch and Joe Kelly bested Harry Williams.

Play commenced yesterday in the tennis tournament for the championships of the Pacific Coast at San Rafael and attracted a large crowd of spectators. The tournament opened with men's doubles in which eight teams were entered. Owing to the inability of the players from the southern part of the State to arrive at 2 o'clock, as scheduled, the upper half of the tournament had to be held over until late in the day.

When the play for the day had been finished Grant Smith and J. D. MacGavin had reached the finals. W. B. Collier and P. Murdoch and A. C. Way and R. H. Varie were in the semi-finals. The latter two teams will contest this morning to decide which will meet Smith and MacGavin for the privilege of meeting Freeman and Bell in the challenge round.

Following are the scores of yesterday's play: Men's championship doubles: First round—W. R. Collier Jr. and P. Murdoch beat H. Rolfe and E. Schmidt, 5-6, 7-5, 6-2, 6-3. Second round—W. B. Today the semi-finals and the finals of the men's doubles are played and the women's singles commenced. The drawings for the latter were made last night and resulted as follows: Preliminary round—Miss Seymour vs. Miss G. Dobbin; Miss Seymour vs. Miss Miriam Edwards. Freeman will defend his title as singles champion and with A. E. Bell will meet the winners of the all-coners in the doubles in defense of the championship which they hold.

PILOT BOATS PATROL COLUMBIA.

PORTLAND, Ore., Sept. 1.—A special to the Oregonian from Astoria says: The new Oregon Pilot Commission has decided to inaugurate a new and vigorous policy with regard to having the waters off the mouth of the Columbia river patrolled by pilot boats. Protests have been made at the Astoria by captains, who alleged that after running up to the mouth of the river they had been forced to pull off shore by reason of there being no response to their signals for pilots. To prevent any recurrence of these complaints the Pilot Commission has directed that a pilot boat supplied with a complement of pilots at all times be kept patrolling off the mouth of the river.

SUIT OVER ESTATE.

NEW YORK, Sept. 1.—As a result of the complications arising over the property left by Gunning S. Bedford of this city, who died last February in Paris, a three-cornered fight has begun in the Supreme Court. In the name of Eugene L. Blasse and Stephen Fiske, trustees, action has been brought to determine the rights of all persons interested including the widow. The latter was detained in London a few months ago, charged with attempting to take a child to France. The infant is reported to have died in France recently. While the estate is not great, there is a large trust fund involved, which should pass to Bedford's heirs.

Next Sunday the Hahns will go to Phile to play the Hercules team of that place and as the latter has a strong lineup it is expected the game will be a good one.

INDIANS STOP FESTIVITIES AND ARRANGE FOR FUNERAL.

YOSEMITE, Cal., Sept. 1.—The Indian pow-wows, which have been carried on with intense excitement for the last week, came to a sudden end with the burial of Mrs. George, one of the oldest squaws of the Sierras, which took place this morning with imposing ceremonies. When the news came, it was found that the venerable Mrs. George still drew the breath of life, but on Sunday night it was discovered that she had suffered a relapse and death came very suddenly. Yesterday all festivities at the different Indian camps ceased immediately. The social, given in similar affairs last March, which was a huge success and they have been requested to repeat it. The program will consist of musical selections by well-known entertainers on both sides of the bay, and at the conclusion of the program ice cream will be served.

The proceeds will be devoted to the carpet fund of the church. The admission will be twenty-five cents and will include ice cream.

HAD PRIOR AGAINST HIM.

James A. Franklin, sent up about a week ago for eighteen months for passing forged checks, would have had his term extended, probably, if it had been known then that there was a prior against him for a burglary committed in San Joaquin County for which he has served a year. This fact has just been made known to Chief Hodgkins. The former commitment was under the name of Frank Day.

VICTOR WALKIREZ WILL TRY TO CHEAT THE HAND MAN

The trial of Victor Walkirez proceeded slowly this morning and up to the noon hour but four jurors were accepted in addition to those secured yesterday. The question of insanity and extreme penalty are ones that many of those examined, have scruples about and make their services unacceptable to one side of the other.

The attendance at the trial is as great as that of yesterday and by the time the case is once fairly on it is believed it will be a drawing card that will fill the courtroom.

The jurors secured this morning were John H. Trow, S. J. Potter, Emil Kirchoff, and Charles M. Cornell, with Patrick Carroll, William H. Rouse, Ruben Wlund, J. E. A. Schuur and William Berry, make nine of the twelve who will settle his doom.

It is believed that by late this evening the entire jury will be complete and that the regular work of the trial will be proceeded with in the morning. Captain Peterson is watching the matter for the police and with Detective Holland and Quigley are keeping a strict tab of what takes place. The police department is prepared to furnish the necessary proofs, secured at the time of Walkirez' arrest and since then, to make a strong case as it is possible to do.

There is little left to combat so far as the murder story itself is concerned as the police have a full and free confession of the crime and the whole case will hinge and turn upon the matter of his being temporarily insane at the time of the commission of the deed. He will admit that he did it but will attempt to save his neck from the hangman's noose by a plea that he did it while out of his mind.

His character and mode of life prior to May 4 will be gone into as pertinent to show that he had committed other crimes than the one for which he is now on trial. It is here that the police expect to get an ample distance from his companion, Anna Ross.

COMPLAINS OF STREET CONDITION.

The Board of Public Works is in receipt of the following letter, which has been placed on the file for further consideration:

"Oakland, August 31, 1903.

"To the Board of Public Works, Oakland, Cal.—Gentlemen: Some weeks ago, I by the direction of the Peralta Heights and Boulevard Improvement Club, called your attention to the very bad condition of Twelfth street from Oak to Fallon streets, and requested that said streets be put in condition for safe and comfortable travel. Up to August 26th, at which time another meeting of said club was held, no word had been received from your honorable board, nor was any visible effort being made to put said street in presentable shape.

"At our last meeting I was again instructed to respectfully request that the street be complained of be fixed. While about it, I would also respectfully call your attention to the fact that the North end, or Oakland approach of the new road over the dam is already full of ridges and depressions, and will soon be in a dilapidated condition, unfit for travel. Verily, we Oaklanders are a great people! Yours respectfully,

"H. N. MORSE."

He came from San Francisco a week ago, and was in the employ of the Stockton Gas and Electric Company. The man had worked for years as a lineman, and was an experienced man. CARDUI IN THE HOME

The wonderful tonic properties of Wine of Cardui make it pre-eminent the "household remedy" for American women.

Thousands of women who know that Wine of Cardui is the greatest menstrual regulator, cannot bring themselves to believe that the nervousness and headache they endure have anything to do with serious female diseases. But it was the weakness of womanhood that caused Miss Joseph's nervousness, stomach trouble and loss of flesh.

Female weakness not only causes backaches and headaches but it is frequently the beginning of consumption. If you are nervous and tired out continually, you could have no clearer warning of female disorders. Do not wait until you suffer unbearable pains before you seek treatment. You need Wine of Cardui now, just as much as if

213 South Prior Street, ATLANTA, GA., March 21, 1903.

I suffered for four months with extreme nervousness and lassitude. I had a sinking feeling in my stomach, which no medicine seemed to relieve and losing my appetite I became weak and lost my vitality. In three weeks I lost 14 pounds of flesh and felt that I must find speedy relief to regain my health. Having heard Wine of Cardui praised by several of my friends, I sent for a bottle and was certainly very pleased with the results. Within three days my appetite returned, and my stomach troubled me no more. I could digest my food without difficulty and the nervousness gradually diminished. Nature performed her functions without difficulty and I am once more a happy and well woman. My mother has also been greatly helped through Cardui superior to any doctor's prescription or other medicines we have ever known of. It has become our favorite household remedy and a number of our friends have been helped greatly through its use.

BERKELEY AND THE STATE UNIVERSITY

GREAT MORALITY PLAY AT THE UNIVERSITY.

"Everyman" is Presented Before the Students and Friends of the University.

BERKELEY, Sept. 1.—The fifteenth century morality play, "Everyman," that has created such intense interest in Eastern university circles, was presented this afternoon for the first time on the Pacific Coast at Harmon Gymnasium, on the University of California campus. The company of players from London, who were personally directed by John Greet, were greeted by a large audience of teachers, students and persons in various walks of life that had come from all the bay cities.

The bare stage of the gymnasium had been elaborately hidden with gorgeous scenery, which was further heightened by the classical costumes of the players.

The play consisted of a single act and required an hour and forty minutes for presentation. The characters of the play, in the order of their appearance, were: Messenger, Adonai, Debe, Everyman, Fellowship, Cossin, Kynrede, Gooden, Good Journey, Knowledge, Confession, Beauty, Strength, Fyve Wyttes, Discretion, Angell and Doctor.

The unusual English production had a tremendously impressive effect on the audience. After an announcement by the Messenger, God opens the play with the assertion that, as men are so drowned in sin and cumbered with riches that they have forgotten Him, He has decided to do justice on them and "have a reckoning of every man's person." He bids "Debe," His mighty "messenger," tell "Everyman" to prepare for his last pilgrimage. On hearing the terrible message, "Everyman" tries his pleadings and bribes to obtain respite, but gets only permission to take companions, if he can find any hardy enough to accompany him.

"Fellowship" enters and notices "Everyman's" grief, asks its cause, vowing his readiness to die for him. But when he hears his friend's request he flatly refuses to go a foot with him. Appeals to "Kynrede" and "Cossin" are no more successful and the heavily laden "Gooden" simply mock at "Everyman's" distress. At last, in despair, "Everyman" seeks his long neglected friends, "Good Journey," though laden with work and gold on the ground, and by his side he finds that he cannot stir, really consenting to do all that he can for him. She introduces him to her sister, "Knowledge," and she offers to be his guide. She brings him before "Confession," from whom he receives the fowl "Penance," a line new one, and one of the hand-supplications and the severity of his penance frees "Good Journey" and strengthens her that she can go with him on his journey. "Knowledge" then, in the garment "Contrition" and accom-

AT DENTISTRY FOR TREES.

NOVEL PROCESS EMPLOYED AT UNIVERSITY TO SAVE THE OAKS.

BERKELEY, Sept. 1.—Previous experiments having demonstrated the fact that the decay of the old oaks which grace the University of California campus may be prevented by filling in the crevices and rotting branch holes with cement, the University gardeners have now undertaken the work on a larger scale than ever before. A large force of men are now engaged in the "tree dentistry," lopping off dead branches and filling in the cavities with tar and cement.

The treatment which is being given the trees keeps the rain water from the heart of the trees and prevents the accumulation in the open spaces of leaves, soil and other agents that would contribute toward the decomposition of the venerable trees.

One of the trees receiving treatment is the "Le Conte" oak that was dedicated to the memory of the late Joseph Le Conte, the eminent scientist of the University of California.

WOULD RETAIN PASTOR.

CONFERENCE IS HELD BY MEMBERS OF TRINITY CHURCH.

BERKELEY, Sept. 1.—The fourth quarterly conference of the Methodists was held last night at the Trinity Methodist Episcopal Church, Rev. John Coyle, the Presiding Elder, conducting the convocation. The meeting proved to be an unusually important one, reports of work accomplished being presented by the presidents and secretaries of the various church organizations.

It being the privilege of the church to express its desires in regard to its pastor for the coming year, as all appointments of pastors end with the annual conference, to be held at Pacific Grove on September 8th, Rev. C. K. Jenness, the present pastor, was unanimously requested to retain his place. Rev. Jenness will depart to-morrow morning for Pacific Grove.

A successful joint meeting of the Women's Home Missionary Society and the Women's Foreign Missionary Society was held this afternoon at the residence of Mrs. F. J. Masters, 1740 Oxford street. The assembled ladies took the occasion to extend a farewell to Mrs. Davidson and her daughter,

Wild Beasts as a Business.

The bringing of wild beasts from the jungle is an immense business and the demand for them is constantly increasing. The zoological gardens, circuses and private parties are important markets for animals. The circus alone, however, would gladly take all the jungle beasts which reach New York alive.

GLEE CLUB MEMBERS OPPOSE THE NEW PLAN.

Declare That Their Organization is for Social As Well As Musical Purposes.

BERKELEY, Sept. 1.—The members of the University of California Glee Club are greatly excited over the recent action of the Executive Committee in superseding the present system of choosing members, and impelling their will in the Glee Club. The singers declare that the Glee Club is a social organization and that to make musical ability the sole requisite would end in the destruction of harmony among the members. On the other hand the Executive Committee declares that it would make social caste a bar to membership.

But it looks as though the Executive Committee will not recede from its stand to supersede the musicians, some of whom, in the past, have been made to tell, before the Students' Affairs Committee, the part they played in escapades while on concert tours away from home.

WATER SUPPLY ACQUIRE A NOTED ATHLETE.

BERKELEY OFFICIALS FIND THE WATER IS ALL RIGHT. SPERRY OF MODESTO JOINS THE BERKELEY HIGH SCHOOL.

BERKELEY, Sept. 1.—Upon the invitation of the Contra Costa Water Company, the members of the Berkeley Board of Health made an inspection to-day of the plant of the company in the city and the water sheds in Contra Costa county.

The Health Board, consisting of Dr. E. H. Payne, president; Dr. F. R. Woolsey, Dr. H. N. Russell and Dr. C. E. Gladding met the officials of the water company at 9 o'clock and were driven over the various water courses, after first visiting the Berryman and Summit reservoirs.

The watersheds in Wild Cat Canyon were visited as well as other sources of supply. All the territory from which the water is drawn was found to be in a clean condition.

It is probable that the findings of the Health Board will be officially communicated to the Town Board of Trustees at their next regular meeting.

BERKELEY, Sept. 1.—With the acquisition of Sperry of Modesto, the athletes of the Berkeley High School are jubilant over their prospects for point winning in the coming field days. Sperry proved himself to be an all around athlete of no mean ability in the last few field days of the Academic Athletic League, first places in the shot put and hammer throw as well as honors high jump and pole vault.

Bill of Oakland High School, who has made some splendid records in the high jump is also attending Berkeley High.

Philip Huckleby is following the footsteps of two of his brothers, who graduated from the High School, in making good time in the distances. He will also be a likely man on the gridiron.

There are in the United States 1,940,220 railway cars and 41,728 locomotives.

SEMI-MONTHLY AMUSEMENT FOR INMATES OF THE COUNTY HOSPITAL.

HAYWARDS, September 1.—The inmates of the County Infirmary are in the future to be treated to periodical entertainments. Dr. Clark, the superintendent of the hospital, has made arrangements to have one such for them semi-monthly. He has secured prizes from several musical and literary people to contribute their services and the various women clubs of the surrounding towns will be called on for aid.

W. B. Webster, a San Francisco photographer, will deliver a stereoscopic lecture. Supervisor John Mitchell has promised to entertain as has also Judge Melvin.

HAYWARDS WON.

The J. H. Woods club beat the Providence baseball team Sunday by a score of 6 to 3. The feature of the game was a triple play by the locals. First and second bases were covered when Pitcher Budge caught a ball, threw it to third, adding the runner there, the third baseman threw it to second, stopping the man there. Then the sphere went to first before the latter had time to leave.

SCHOOL FULL AT FRUITVALE.

LARGEST ATTENDANCE EVER KNOWN IN HISTORY OF THE DISTRICT.

FRUITVALE, September 1.—The monthly report of Principal Greenman of the Lockwood school, shows the institution to be in a very good condition. There are over 150 pupils this term, the largest attendance the school has ever had. All but two of the rooms of the building are now occupied. There are on the second floor. At present they are thrown into one and used as an assembly room. The fact that the building is a fine new one, and one of the handsomest in the county, has tended greatly to increase the attendance.

The grounds around the school house are being put into good condition for an excellent playground and lawn. The pupils will probably have three days' vacation next week. Labor Day is Monday and Admission Day Wednesday, both holidays. A single isolated school day between two holidays is not of much advantage, so the pupils will likely not be required to come to school next week until Thursday.

Principal Greenman and the other teachers are congratulating themselves on a roll of honor, to be published after the bi-monthly examinations.

PREPARE FOR SOCIAL.

At the regular weekly meeting of Ladies' Guild, O. C. R. RIDING ON WALK ON SUNDAY.

EMERYVILLE PEOPLE GOING TO ATTEND THE STATE FAIR.

EMERYVILLE, September 1.—A queer story of disobedience and swift retribution in which officer Brown played a leading part was unfolded in the Town Hall yesterday when a batch of offending juveniles appeared for trial.

The complaint read: "Leola Story, Piedmont, charged with violating ordinance 28, Personal P. 250, section 1, a misdemeanor, and a ticket to the city hall."

The story came out in tears and sobs when Judge Coburn questioned the youthful culprit. It seems that Leola left home Sunday with her father under his arm, headed by her parents, believed for Sunday school, but in reality for Golden Gate Park. At Park avenue and San Pablo he was detected riding past people on the sidewalk and was promptly arrested by Deputy Brown.

In consideration of 5 day's youth, Judge Coburn released him. The boy's mother assured the Judge that she was competent and willing to take care of him.

Eight cases, all for same offense, were handled yesterday.

TAKE FAIR IN.

T. Kane and party left on the 5 o'clock train last night for Sacramento. Several of those who left in a racing interest, which they wish to take care of during the celebration.

THE WHEEL CAME OFF.

TEAM RAN AWAY DRAGGING THE WOMAN ALONG THE ROAD.

ELMHURST, September 1.—Mrs. H. H. Pollard was severely bruised about the face and also badly shaken up in a runaway accident yesterday. With her husband, a well-known motorman on the Hayward division of the Oakland Transit, consolidated, and his sister, Mrs. W. H. Lane, of Fresno, Mrs. Pollard had started to drive to Lake Chabot over the new road. They had just reached the bottom of the hill at the head of Escalante avenue when the left front wheel of the buggy dropped off. The horses, which had been standing in the stable next few days and which were a little fractious, took flight, and dashed down the road. The buggy turned over on its side, and the top being up, prevented the ladies from jumping out. Mrs. Pollard was jerked over the dashboard with the first jump of the team. When he braked back in the rig, it was leaning so he could not pull the reins well, having no brake. He managed to stop the animals over into the ditch, but not before Mrs. Pollard had been dragged about a hundred feet along the road on her face.

The skin of course, was badly cut and bruised. The other two occupants of the rig were unhurt.

It seems that the nut had dropped off the axle a short distance west of the San Leandro bridge, but the wheel had stayed on for a long time afterwards.

The buggy, which was completely demolished, was a fine new one. Mr. and Mrs. Lane having just driven to Elmhurst in it from their home in Fresno.

PAINTERS HAVE RETURNED.

The painting gang returned to work yesterday in the local power house of the Oakland Transit Consolidated. The men have been at work on the new Santa Fe ferries for the past few weeks. They are now engaged in painting up some of the West Eighth street cars.

WARNING TO PARENTS.

There have been posted up in all the cars of the Oakland Transit Company, notices warning parents to keep their children from jumping on and off street cars. The conductors and motormen are constantly cautioned with boys riding on the cars. The last jump on and off when the cars are going almost at full speed, and are in constant danger of losing life and limb.

PERSONAL.

Mrs. N. A. Kane, of San Francisco, has been the guest of Miss Madge Flynn, of East Fourteenth street.

Mr. and Mrs. W. H. Lane, of Fresno, are the guests of the latter's brother, H. H. Pollard.

Steel Trust Row.

One thing which attracts the attention of passersby along Fifth avenue, that portion called "Steel Trust Row," is the magnificent entrance to the many houses recently erected. The tendency of late seems to be to get away from the use of wooden doors, bronze, iron and polished steel being substituted. A well-known architect says that \$1,000 a year is now being spent to beautify the finer class of dwellings in New York with charming and attractive entrances. Dozens of the palatial homes on Fifth avenue and in the side streets, especially in the Seventies, have elegant entrance ways of bronze, iron and polished steel.

WILL PLAY WHIST THIS EVENING.

HIGH STREET PROPERTY OWNERS PETITION THE BOARD OF SUPERVISORS.

FRUITVALE, Sept. 1.—The following petition was filed with the County Clerk yesterday afternoon urging the Board of Supervisors to take such action as will make the deeds of land for the widening of High street permanent, so as to keep some of the property-owners from reconsidering their deeds. The petition reads as follows:

"To the Honorable Board of Supervisors of Alameda County: We, the undersigned property-owners and taxpayers of this county, owning property on and in the vicinity of High street, Fruitvale, do, respectfully, petition your honorable board to declare the voluntary deeds of land for the widening of High street for boulevard purposes, as filed and set forth for the reason hereinafter stated:

"We have, in good faith, and for the purpose of improving and beautifying this section of our country, decided to county the requisite number of feet from our several properties fronting on High street to make the required width of ninety feet necessary for a boulevard; now

"Whereas, certain parties who have already filed such property for such purpose have shown a disposition to have rescinded such action on their part, thereby making impracticable our efforts and destroying the principle of a boulevard, we, as a majority of property owners, deem it just and fair to ourselves to have this work proceeded with and not have our good work hampered by an action rescinding this admirable improvement. Hence, we ask the final acceptance of all deeds to property concerned in this matter.

TAKE STEPS TO SECURE A HISTORIC SIGN.

BERKELEY, September 1.—Philip M. Carey, a member of the Senior class at the University of California, has been delegated by the students to recover the old California Hall sign which still hangs over the old Dietz Opera House in Oakland. Carey has made an attempt to secure the sign, but A. C. Dietz, the owner of the building, is at present on his vacation in Santa Paula.

Should the sign, which marked the college watch afterward developed into the University of California be secured, it will be placed in North Hall, over the point where the students congregate on the steps. The event will be made the occasion of a rally in which John R. Glascock of Oakland and A. C. Dietz will be invited to address the students.

"Say, mamma," queried 4-year old Johnny, who had been detailed to look after the baby, "was everybody little once?" "Yes," was the reply.

"Then who took care of 'em?" asked the small martyr.

BERKELEY, Sept. 1.—Fred Laist, who graduated from the University with the class of 1901, and who until recently was connected with the chemistry department of the University of Salt Lake, has invented a process for extracting valuable ores that promises to be of great importance to the mining industry.

The detailed results of his investigations are outlined in a letter to Professor W. B. Rising. Laist was well known as a student in research work while attending the University and made progress with his invention that the faculty members under whom he had worked were not surprised to hear of the success of his experiments.

Estimates are, therefore, confined to the costs of the previous year and to provision for pressing needs. REJECTION OF TREATY

NEW YORK, September 1.—Dispatches from a Bogota correspondent assert, says a Panama dispatch to the Herald, that the Panama canal treaty was rejected by the Senate because of the imperative nature of the notes received from Secretary of State Hay and United States Minister Beaupre. These notes, the correspondent declares, were regarded as offensive.

The main question now discussed is whether the United States will be willing to enter into new negotiations, or will simply let the matter drop and make up the Nicaragua route. Immediately after the treaty was rejected exchange went up to 12,000 per cent discount.

That old, familiar saying, "There's nothing new under the sun," is utterly disproved in Ringling Brothers' colossal circus, menagerie and hippodrome which exhibits in Oakland Saturday September 5th. The Ringling Brothers have millions of dollars invested in their stupendous enterprises, and in a

dition to the most complete and varied living scenic performance in the world, which introduces all the marvels of the present age, the five famous brothers present this year, on a scale of grandeur and magnificence never before attempted, a gorgeous spectacular production of Jerusalem and the Crusades. This spectacular, arranged by men of note and ability in the amusement field, is a historical pantomime. In the most minute particulars and details, it is a reproduction of

This production is given on the largest stage ever used for exhibitional purposes, and on a larger scale than would be possible in a hundred theaters while the scene of action is so great

of the "Babes" city or Jerusalem. It shows the costumes worn by the different characters of the Middle Ages: the educational pantomime, kings, princes, knights, bishops, ladies of the royal courts, dancing girls, women of the harem, eunuchs, slaves, soldiery and pilgrims, are built in correct design from the most costly fabrics, silks, satins, velvets and cloth of mail, and all were made by the Persian costumers and modelists of international reputation. These costumes, with the gor-

giant horse, ragged armor and delirious shouts, cost thousands of dollars to make. The very painted and buffed armor of the Ringing Brothers is especially for the Ringing Brothers and showing places and churches magnificent in architectural design, and the sumptuous inner courts of the fabulously rich emirs of Egypt, represent an outlay of a fortune alone.

In order to correctly round out the picture, the characters, costumes, accoutrements and scenery portray, Ringing Brothers have added to the church

settings one of the costliest pipe organs ever constructed. As a matter of fact, this instrument is really three magnificent instruments built as one, and of extraordinary volume and richness of tone. Under the masterful direction of Professor Emil Edmund Schultz, it rivals instruments of a similar kind found in the famous old cathedrals of Europe. Accompanied by the organ a chorus of 200 specially selected voices rise and blend in classical song, filling with wonderfully sweet harmony the

vast canvas amphitheater, capable of comfortably seating 20,000 people. The spectacular is in three acts and seven scenes, the first act showing the historical context in Germany, France, and the United States, when the march was upon our doorstep. The second act depicts the march toward the Holy Land, and the third the two-day revels of the faithful and the blood stirring battle which resulted in the Egyptians being overthrown by the Christians. In the German scene is depicted a tour-

ament given by King Philip I., in which is introduced the thrilling lifting and jousting contests—the famous sports of the tenth century—and furious broadsword battles, together with exhibitions of such horsemanship as is still only kept up by a few knights were allowed to participate. In the third act of this magnificent spectacle the interior court of the palace of Tsaker, the infidel emir of Jerusalem is faithfully portrayed.

Although the pilgrims are by this

time occupied outside the walls of the Holy City, and are dying by the hundreds of starvation and pestilence. Tasker, seated on a golden throne, thickly smudged with gore, and surrounded by the women of his harem—his slaves and soldiers, is applauding the successful execution of hundreds of his subjects. The scene is a lurid, gaudy, trashy, and incomprehensible ballet, which is a kaleidoscopic picture of beauty, color, and action. The revelry is at its height when a mounted courier dashes

into the count with the word that thine
Christian pilgrims are storming the
walls of the city. The emir, hasterdly
dismissing his retinue, seizes sword,
and helmet and dashes into the thickets
of the fight. The roar of battle is ter-
rific, and presently the knights and pil-
grims gain a foothold on the walls, se-
cure one of the gates, and eventually
capture the city. As the male
pilgrims, the glorious Godfrey, and
Reoulon ride his frame-decked charger,
upon the emir's throne, and surround

Fifty great principal and menageries riders are with Ringling Brothers' immense circus, which will exhibit soon in this city. Among the most famous are the Hoppers, the Valletts, direct from Australia, John and Michael Rooney, Rhoda Royal, Madame Royal, Miss Daisy St. Leon, Gus St. Leon, Miss May Daymont, John Agee, Frank

Schadel, Reno McCree, Albert Thompson, John Slater and Miss Ida Mingo.
